

IT Security Seminar 15

Student version

Prof. Leonardo Mostarda,
School Science and Technology,
Camerino University, London
Version 2.0, Mar 2015

Question 1

How would you make sure that you are really communicating with the alleged entity? Can biometrics help?

Question 2

The student should describe a X 509 certificate. How would you maximise the security of a digital certificate?

Question 3

Figure 1 shows a hierarchy of certification authorities. How can the user A verify the certificate provided by B?

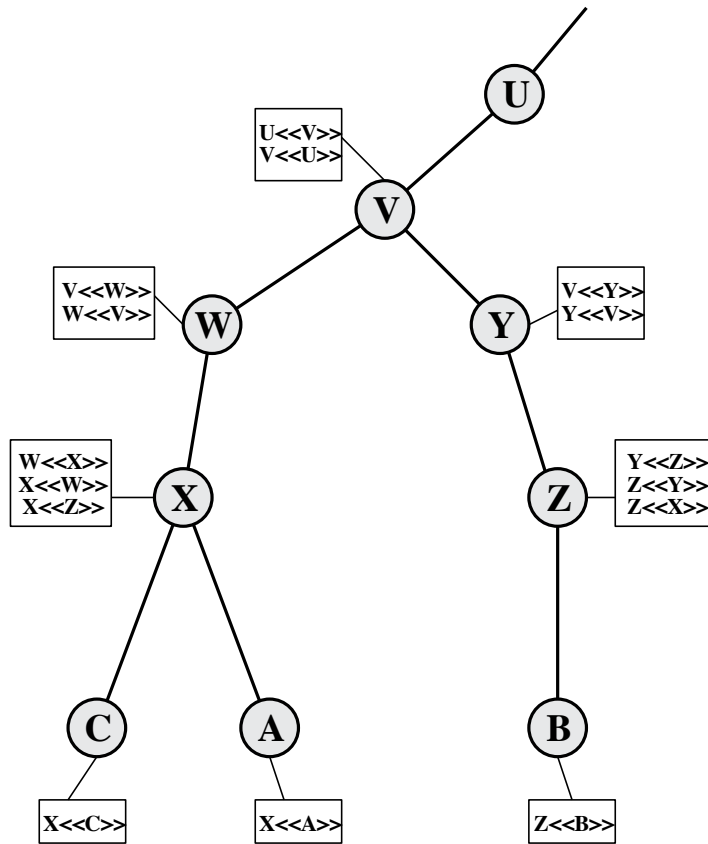

Figure 14.4 X.509 CA Hierarchy: a Hypothetical Example
